I thought I'd get initial drafts of the CFAC Final Listing communication strategy, news release, and next community update for your review today since some of us may be taking leave next week. Let me know your edits and feedback when you get time.

I have shared the news release with Andrew Mutter and Rich Mylott for their feedback and action. Mike and I will continue to develop talking points and Q&A.

I hope to issue the community update no later than next week, Tue. Aug 23. It is short and fairly general. If possible, please get me your thoughts back for the community update as soon as possible.

Thanks!
